PythonAnywhere attempt:

If you deployed successfully, simply include the URL to your deployed app here. If you were unsuccessful, provide a detailed description of the steps that you followed and what failed. Include evidence e.g., screenshots of error messages.

<http://n11412437.pythonanywhere.com/index/index/index.html>

`git shortlog > output.txt`

Copy and paste the contents into the report. This will show us the commits of each user and the total number of commits.

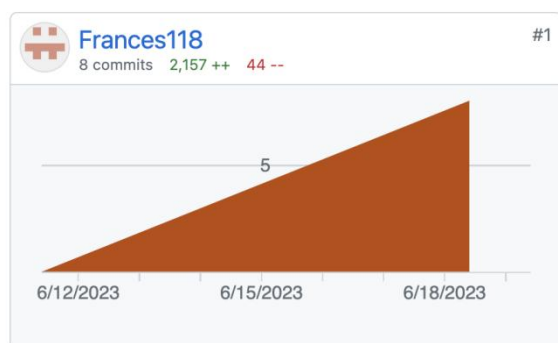

Present :

Frances118 (Shuo Sun)(8):

- Create main.py
- Add files via upload
- Add files via upload
- Add files via upload
- Update main.py
- Update __init__.py
- Update forms.py
- Add files via upload

Olivia Zheng (8):

- Update index.html
- Update index.py
- Update forms.py
- Delete db.sqlite
- Add files via upload
- Update index.html
- Delete db.sqlite
- Add files via upload

Previous Github:Frances Sun(Shuo Sun) (17):

- remove dummy code
- database
- debug of base.html
- Add files via upload
- Add files via upload
- Add files via upload
- Delete event/website directory
- Delete main.py
- Create iab207
- Delete iab207
- Add files via upload
- Add files via upload

Delete requirements.txt
Add files via upload
Add files via upload
Add files via upload
Update models.py

Myxinos (35):

Initial commit
Test.md
Add files via upload
Delete Booking History.html
Delete css directory
Delete pic directory
Delete .gitattributes
Delete Base.html
Delete Create an event.html
Delete Event Detail.html
Delete Index.html
Delete README.md
Delete requirements.txt
Add files via upload
Add files via upload
Add files via upload
Add files via upload
Delete requirements.txt
Delete requirements.txt
Add files via upload
Add files via upload
Update Create an event.html
updates done by Myxinos
Update Create an event.html
Add files via upload
Create CreateEvent.py
Merge branch 'main' of <https://github.com/Myxinos/Group-9-Assessment-Task-3>
Create server.py
SQL Query and EventDatabase.db
Changes
Update EventDatabase.db
Merge branch 'main' of <https://github.com/Myxinos/Group-9-Assessment-Task-3>
Update EventDatabase.db
Update Create an event.html
Bookings DB
